DUNES Our First Line of Protection

Dunes are our best protection against storm damage, erosion & coastal flooding. Pedestrian and vehicular traffic is prohibited on or over the dune areas, except in designated access ways at street ends. Residents and visitors are reminded NOT to remove any sediment or native vegetation, place any non-living trees, brush, shrubs or other debris, or remove or destroy any sand or sand fencing, unless it is part of an authorized dune maintenance. Signs are posted along the beachfront warning of fines for violations.

Swimming Safety Tips

Swim near a lifeguard- lifeguard stands are staffed each day from 10am to 5pm.

- IF CAUGHT IN A RIP CURRENT**
- ◆ Don't fight the current
 - ◆ Swim out of the current, then to shore
 - ◆ If you can't escape, float or tread water
 - ◆ If you need help, call or wave for assistance

- SAFETY**
- ◆ Know how to swim
 - ◆ Never swim alone
 - ◆ If in doubt, don't go out

More information about the DUNE-IT can be found at the following web sites:

**EMERGENCIES HAPPEN
ARE YOU PREPARED?**

**YOU'RE ON VACATION
A DISASTER STRIKES
DO YOU KNOW WHAT
TO DO?**

Presented by:

**LBI Multijurisdictional PPI
for Emergency Preparedness.**

●●● | Know what to do! Stay informed!

All of the municipalities on Long Beach Island have emergency plans in place. In the event of an emergency you need to remain informed to provide safety for you and your family. There are several systems in place to assist you with staying informed and for communicating information to emergency personnel.

WHEN A WARNING IS ANNOUNCED:

Do not wait until the last minute! Tune to your local radio or TV station for information.

RADIO AND TELEVISION STATIONS:

LBI Emergency Management Radio station
1650 AM

Local Radio Stations:

90.7 FM WYRS
92.7 FM WOBN
98.5 FM WBBO
99.7 FM WBHX
100.1 FM WJRZ
107.1 FM WWZY

Television Stations:
Comcast Cable Channel 21 & 22

●●● | WHEN TOLD TO EVACUATE:

Place all of your items in the trunk of your vehicles.

Take all items you brought with you to your rental unit, including prescription medications, eyeglasses, cash, credit cards, jewelry, clothing, toiletries, etc.

Secure the home and **LEAVE!** Do so without hesitation! The longer you wait to leave the more likely you will encounter vehicular grid-lock on Long Beach Island as Stafford Township residents converge onto Route 72, the **ONLY** access westbound!

If you are in need of transportation or special help in order to evacuate, register with the Long Beach Island Health Department. All information is kept strictly confidential.

609-492-1212

NIXLE– Is our first line of communication to our residents and visitors during an emergency. This is a free service which you can register your mobile phone with at www.nixle.com.

Turn-Around, DON'T DROWN!

Long Beach Island is subject to localized flooding during periods of heavy rainfall. Flood waters tend to be deeper than they appear. Avoid going through any bodies of water for the safety of you and your family.

●●● | Personal ID & "ICE"

It is important to always keep a form of identification on you at all times. In an emergency situation police and medical personnel will need to know who you are and how to reach your next of kin as well as your medical information. Many mobile phones have an "ICE" or "In Case of Emergency" contact feature. If you do not have this feature simply create one or more emergency contacts and use "ICE" as a pre-fix to the name.

NOAA National Oceanic & Atmospheric Administration provides daily weather forecasts, severe storm warnings and climate monitoring which can be accessed through radio, TV & internet
