## Water Restriction Guidelines

In effect June 1 - September 30

Through our continuing effort to conserve water, Long Beach Township allows residential and commercial watering only according to alternating odd/even address numbers and calendar days:

- Addresses with EVEN numbers may irrigate on EVEN calendar days, as needed.
- Addresses with ODD numbers may irrigate on ODD calendar days, as needed.

Automatic sprinkling systems shall be operated only between 5:00 a.m. and 8:00 a.m. every other day.

Handheld hoses must be 3/4" diameter or less and can be used between 7:00 p.m. to 10:00 a.m. according to the odd/even schedule.

*No watering during rain*

Limit excessive watering so as not to cause run off into streets and driveway aprons; however, food establishments shall be permitted to wash down sidewalks, decks, garage aprons and the like.

**Emergency conditions may warrant additional restrictions.**

The above water conservation restrictions are enforced by Municipal ordinance No. 10-44c as mandated by the state of New Jersey

# Solutions to Stormwater Pollution

*Easy Things You Can Do Every Day To Protect Our Water*

## A Guide to Healthy Habits for Cleaner Water

Pollution on streets, parking lots and lawns is washed by rain into storm drains, then directly to our drinking water supplies and the ocean and lakes our children play in. Fertilizer, oil, pesticides, detergents, pet waste, grass clippings: You name it and it ends up in our water.

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we're all doing something about it.

By sharing the responsibility and making small, easy changes in our daily lives, we can keep common pollutants out of stormwater. It all adds up to cleaner water, and it saves the high cost of cleaning up once it's dirty.

As part of New Jersey's initiative to keep our water clean and plentiful and to meet federal requirements, many municipalities and other public agencies including colleges and military bases must adopt ordinances or other rules prohibiting various activities that contribute to stormwater pollution. Breaking these rules can result in fines or other penalties.

**As a resident, business, or other member of the New Jersey community, it is important to know these easy things you can do every day to protect our water.**

### Limit your use of fertilizers and pesticides

- Do a soil test to see if you need a fertilizer.
- Do not apply fertilizers if heavy rain is predicted.
- Look into alternatives for pesticides.
- Maintain a small lawn and keep the rest of your property or yard in a natural state with trees and other native vegetation that requires little or no fertilizer.
- If you use fertilizers and pesticides, follow the instructions on the label on how to correctly apply it.

Make sure you properly store or discard any unused portions.

### Properly use and dispose of hazardous products

- Hazardous products include some household or commercial cleaning products, lawn and garden care products, motor oil, antifreeze, and paints.
- Do not pour any hazardous products down a storm drain because storm drains are usually connected to local waterbodies and the water is not treated.

- If you have hazardous products in your home or workplace, make sure you store or dispose of them properly. Read the label for guidance.

- Use natural or less toxic alternatives when possible.
- Recycle used motor oil.
- Contact your municipality, county or facility management office for the locations of hazardous-waste disposal facilities.

### Keep pollution out of storm drains

- Municipalities and many other public agencies are required to mark certain storm drain inlets with messages reminding people that storm drains are connected to local waterbodies.
- Do not let sewage or other wastes flow into a stormwater system.

### Clean up after your pet

- Many municipalities and public agencies must enact and enforce local pet-waste rules.
- An example is requiring pet owners or their keepers to pick up and properly dispose of pet waste dropped on public or other people's property.
- Make sure you know your town's or agency's requirements and comply with them. It's the law. And remember to:

- Use newspaper, bags or pooper-scoopers to pick up wastes.
- Dispose of the wrapped pet waste in the trash or un-wrapped in a toilet.
- Never discard pet waste in a storm drain.

### Don't feed wildlife

- Do not feed wildlife, such as ducks and geese, in public areas.
- Many municipalities and other public agencies must enact and enforce a rule that prohibits wildlife feeding in these areas.

### Don't litter

- Place litter in trash receptacles.
- Recycle. Recycle. Recycle.
- Participate in community cleanups.

### Dispose of yard waste properly

- Keep leaves and grass out of storm drains.
- If your municipality or agency has yard waste collection rules, follow them.
- Use leaves and grass clippings as a resource for compost.
- Use a mulching mower that recycles grass clippings into the lawn.

# SHELL RECYCLING DROP OFF

**CONSUME** oysters & clams at home.

**DROP OFF** at the DPW yard in shell bins for collection.

**CURE** shells for 6 months & prime them to support new oyster growth.

**CULTIVATE** by using cured shell in bay restoration.

The Public Works recycling yard is now **collecting shells** to use in local restoration projects.

Please help this project by recycling **CLEAN SHELL ONLY {Oyster & Clam}** in the designated containers at the collection site.

This initiative is supported by the LBT Field Station along with Jetty Rock Foundation who designed the drop off signs and donated bins!

Happy New Year! This is the 15th year of publication of our Long Beach Township Recycling/Trash Calendar. We have come a long way since that time in our handling of material and the diverse number of items that we collect. Ocean County establishes what each of the 33 towns in the county are required to collect at the curb. (See the full list of items in the insert flyer in the calendar). It is up to the towns to add any voluntary items they would like to see recycled by residents.

Over the years the township has added drop off for items including shrink wrap, rigid plastic, car tires, cardboard, electronics, scrap metal, appliances and oyster/clam shells. The township DPW offers a courtesy pick up for electronics, appliances, and scrap metal to township residents only. These devices are otherwise special waste drop off only at the Southern Recycling Center in Manahawkin.

Additional inserts in the calendar include water restriction guidelines, tip sheet for stormwater solutions and LBI health department services.

You will see more community-related information in the calendar as we expand the public programming and recreational opportunities around the township. Please visit the website for our Field Station in Holgate for seasonal programs and events [www.lbtfieldstation.com](http://www.lbtfieldstation.com)

We encourage you to post this 12-month calendar in your home and rental properties and remember that we also print out a summer schedule to provide easy access information for summer residents and renters. You can download the Recycle Coach app, to keep the pickup schedule and recycling guide at your fingertips.

Please contact the Recycling and Trash Department at (609) 361-6676 with any questions.

**Best Wishes for a Happy, Healthy and Safe New Year!**
